

## LABORATORY CONTACT DETAILS

The Ethiopian National Accreditation Office would like to establish a database of all laboratories operating in Ethiopia in order to keep them informed of accreditation issues and with progress in the establishment of the accreditation body via its newsletter. We would be grateful if you could complete the short questionnaire below.

| 2010111                          |                    |                     |           |                        |  |
