- l. Have policies and procedures for the resolutions of complaints, appeals and disputes received from suppliers or other parties about handling of certification or any other related matters.

4.3 Operations

The product certification body shall take all steps necessary to evaluate conformance with the relevant product standards according to the requirements of specific product certification system. It shall specify the relevant standards and other requirements such as sampling, testing and inspection requirements which form the basis for the applicable product certification system.

4.4 Subcontracting

When a product certification body decides to subcontract work (e.g. testing or inspection) to an external body or person, a properly documented agreement covering the arrangements including confidentiality and conflict of interest shall be drawn up and the product certification body shall take full responsibility for such subcontracted work and maintain its responsibility for granting, maintaining, extending, suspending or withdrawing certification.

4.5 Quality system

4.5.1 The certification body shall operate an effective quality system. The quality shall be documented in quality manual and associated procedures.

4.5.2 The product certification body shall specify the conditions and shall have procedure for granting, maintaining, extending, suspending and withdrawing.

4.5.3 The product certification body shall provide update at regular intervals, and make available on request, at least the following:

- a) Information about the authority under which the product certification body operates.

- b) A documented statement of its product certification system, including its rules and procedures for granting, maintaining, extending, suspending and withdrawing certification.
- c) A description of the rights and duties of applicants and suppliers of certified products, including requirements, restrictions or limitations on the use of the product certification body's logo and on the ways of referring to the certification granted.
- d) Its procedure for conducting internal audits, and other relevant information.

4.5.4 The certification body should maintain a directory of certified products and their suppliers and make publicly accessible.

4.6 Records

The product certification body shall maintain a record system to suit its particular circumstances, and to comply with applicable regulations, The records shall demonstrate that the requirements for recognition including competence have been effectively fulfilled. The records shall be identified, managed and disposed of in such away as to ensure the integrity of the process and the confidentiality of the information.

4.7 Confidentiality

The product certification body shall have adequate arrangements consistent with applicable laws to safe guard confidentiality of the information obtained in the course of its certification activities at all levels of its organization, including committees and external bodies or individuals acting on its behalf.

5. Certification body personnel

5.1 General

The certification body shall have clearly documented maintained and up to date instructions which describe personnel's duties and responsibilities.

The personnel of the product certification body shall be competent for the functions they perform.

The certification body shall have to sign its personnel by which they with commit themselves to comply with the rules defined by product certification body.

5.2 Qualification criteria (Requirement)

- 521** The personnel who involve in product certification activities shall have B.S.C degree in engineering or science, relevant experience, technical knowledge and taken relevant training.
- 522** The certification body shall define a minimum relevant requirement (criteria) for the competence of its personnel, in order to ensure that evaluation and certification are carried out effectively and uniformly.
- 523** The product certification body shall maintain information on the relevant qualifications, training and experience of each member of the personnel involved in the certification process.
- 524** Records of training and experience shall be kept up to date in particular the following:-
